Section 22.02 CONDITIONAL REZONING OF LAND.

Conditional rezoning of land must follow the standards and procedures as noted below.

- A. The amendment procedure for a conditional rezoning shall follow the same procedure as a traditional rezoning amendment pursuant to State Statute.
- B. The following specific procedures, standards, and requirements apply to all proposed conditional rezoning requests.
 1. A conditional rezoning request must be voluntarily offered by an owner of land within the Village. All offers must be made in writing and must provide the specific conditions to be considered by the Village as a part of the rezoning request. All offers shall be in the form of a written agreement approvable by the Village and property owner, incorporating the conditional rezoning site plan and setting forth any conditions and terms mutually agreed upon by the parties relative to the land for which the conditional rezoning is sought.
 2. Conditional rezoning shall not allow a use or activity that would not otherwise be allowed in the proposed zoning district.
 3. Conditional rezoning shall not alter any of the various zoning requirements for the use(s) in question, i.e. parking, landscaping, lot area, lot width, building height, setbacks, lot area coverage, etc. Conditional rezoning shall not grant zoning variances of any kind. Any zoning variance must follow the provisions of Article XX of this Ordinance.
 4. Conditional rezoning shall not grant special land use approval. The process for review and approval of special land uses must follow the provisions of Article XIX of this Ordinance.

5. All conditions offered by a land owner in relation to a rezoning request must have a direct relationship to the rezoning itself. The provisions to allow conditional rezoning shall not be construed to allow rezoning by exaction.
6. In addition to the information submitted as a part of a standard rezoning application, the applicant must provide a conditional rezoning site plan prepared by a licensed professional allowed to prepare such plans under this Ordinance, that may show the location, size, height or other measures for and/or of buildings, structures, improvements and features, including natural features on, and in some cases adjacent to, the property that is the subject of the conditional rezoning of land. The details to be offered for inclusion in the conditional rezoning site plan shall be determined by the applicant, subject to approval of the Village. A conditional rezoning site plan shall not replace the requirement under this Ordinance for site plan review and approval, or subdivision or site condominium approval, as the case may be.

C. Time Limits and Reversion of Land to Previous District.

1. If the proposed conditions of rezoning are acceptable to the Village, the Village may establish a time period during which the conditions apply to the property and must be met. If the conditions are not satisfied within the time specified under this section, the property shall revert to its former zoning classification. Reversion of a property back to its former classification must follow the rezoning amendment provisions as provided by State Statute for Zoning Map amendments.
2. Unless a reversion of the zoning takes place as described in the section above, the approved conditional rezoning shall be binding upon the subject property owner, their heirs, successors, assigns, and transferees.
3. Upon approval of a conditional rezoning, a copy of the written agreement between the property owner and Village shall be recorded with the Lapeer County Register of Deeds, which shall act to provide notice to all subsequent owners of the property of the conditions approved and agreed to by the Village.
4. The Village may not add to or alter any conditions approved as a part of a rezoning during the time period specified above.

ARTICLE XXIII -- REPEAL OF PRIOR ORDINANCES
